Deficiency in the Genl. Treasury — By the Honble. H. Chamier, Esq. — Thinks that the Acctt. General's letter on the subject of the — should be forwarded to the Honble. Court for orders and that it should be distinctly stated whether the errors pointed out out are matters of Account or involve either pecuniary losses or undue gains to the Honble. Compy. and is of opinion that the Pensions of Arumorgum Moodelliar, Ramasawmy Chitty and others should be appropriated to the payment of the expences to be incurred in rectifying errors occasioned by their neglect of duty, and also that the superior Clerks should be dismissed from their situations or their Salaries reduced until such adjustments and investigations as the Honble. Court may order shall have been concluded. Observes that there is reason to think that the Accounts of the Mily. Board's Office are nearly as bad as the Acctt. General's. 19 August 27

Genl. Treasury, Deficiency in the - By the Honble. H. Dickinson, Esq - Considers the subject of the Acctt. General's report on the - of such vast importance, that the whole should be referred for the consideration and orders of the Govt. of India and of the Honble. Court. Believes that the best means for rescuing the Books from the state of confusion and error in which they now are, will be by the Honble. Court sending out a person well versed in the most approved method of Book-keeping, and, in the meanwhile, the Acctt. General should be encouraged to persevere in his exertions. 19 August 26

Ditto - By the President - States that the opinion entertained by him all along is confirmed by the Acctt. General's report, which should be furnished to the Honble. Court and the Govt. of India without delay for their orders. Observes that Govt. have no assurance that the Books in the subordinate Offices of Account are in a better state. Suggests that Mr. Prendergast should be allowed an opportunity of explanation on the Acctt. Generals observations regarding the Mily Branch of his office. Does not consider the Native subordinates but the head of the Office responsible for the state of books. Expresses his sense of the

the great exertions and personal sacrifice Mr. Stonhouse must have made in the investigation and preparation of the Report submitted and records his obligation for the services of the other Members of the Commission and especially of the 3rd. Members which ought to be prominently brought before the Honble. Court for their notice and approbation. Believes that the improved system of keeping accounts in the Offices of H. M's. Estates - By ditto - As the nature and object of the requisition made by the Registrar has been communicated to the Supreme Govt., is of opinion that it rests with that authority to apply a remedy if the proceedings of the Registrar, apparently sanctioned by the Judges of the Supreme Court, are calculated to occasion injury to the Estates. he therefore approves of the first draft. If, on the other hand, the Members of Govt. think it necessary to obtain the remarks of the Advocate General on the communication from the Judges, he does not wish to delay the despatch of the 2nd. draft 28 October 39

Estates, Accounts of Administrators to - By the Honble. H. Chamier, Esq - Adverts to a passage in the letter of the Judges of the Supreme Court at Madras to the President in Council at Fort William touching the adoption of remedial measures and their subsequent abandonment, believes no report was ever made to Govt. nor any notice of the measures given to the Public through the Gazette, for Administrators still continue to file their accounts in ignorance of the abolition of the orders requiring them to do so, and suggests that the Co's Solicitor be desired to report the date of the abandonment of the orders, whether any and how many Administrators have since filed their Accounts in the Registrar's or Master's Offices and the amount of fees paid on that or any other account indicated in the order of the Judges of 6th May 1843. | 9 December | 9

Ditto - By the President - Has in his Minute of the 11th August last, stated his views on the subject. Still thinks the interference of Govt. unnecessary, further than to inform the Govt. of India that the usual measures have not been adopted for giving publicity to H.
